```
1  namespace CustomProject.GameObjects
2  {
3      public class Land : DrawableObject
4      {
5          public Land(double xLocation, double yLocation) : base(xLocation,
             yLocation, new string[] { "" }, "", "", "land.png")
6          {
7          }
8      }
9  }
```
